Bulky or
heavy weight
goods

Less Than Truck Load or Less Than Container Load (LTL or LCL)

We reliably organize your LTL or LCL shipments from any countries across the world with shortest length of time. Your goods are in safe hands of our professionals and long-term reliable partners. We offer you transport solutions that will best fit with your goods' condition and deliver your goods at targeted rate and ensuring to meet with your arranged time in complete and safe way.

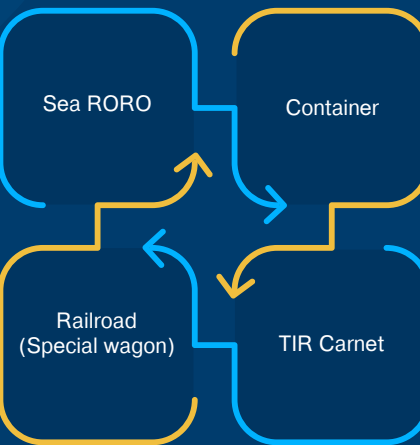

We offer you LCL or LTL shipment services from Europe and Asia through the following routes.

We organize shipments and pick up any goods with typical or specific requirements and/or perishable or fragile goods from Russia, European and Middle Asian countries, collecting the shipments at the warehouses of our partners and have them shipped by TIR carnet trucks or containers on railroad.

We also offer you LCL freight solutions from the USA and other countries through the Incheon Port of South Korea by using mixed mode of air, sea and railroad shipments.

New and second-hand vehicles' transport

We organize new and second-hand vehicles' shipment from the USA, Canada, Europe, Middle and Southeast Asia with the following transportation modes:

Transport of project goods or heavy equipment and machineries

We closely cooperate with all the stakeholders implementing project in private or public sectors and provide parties with most reliable, efficient and quality services.

Our professionals who are handy and flexible at special circumstances will offer you their best service and solutions by accurately planning and deliver the goods within the time specified under the contract.

Air transport

We reliably deliver your goods from the door of any shipper across the world to the door of customer through the wide network of our partners in air mode. The air transport mode delivers goods at the hand of customer for the shortest length of time and is best solution for perishable goods or any small-sized, expensive or fragile equipment which requires specific condition of transportation.

You should provide us with details on general information on the goods, three dimensions of its packing, gross weight including the address to pick up.

Air and sea
mixed mode

Air and truck
mixed mode

Dangerous goods and chemicals

Dangerous goods are prohibited to be transported by general means of passenger transportation and some countries prohibit to ship it by railroad or some even do not allow it to transit through their territory.

We professionally organize shipment of DG, chemicals and detonators for mine purpose, which are required to be transported by specific condition, and we define the main features, transport condition, technology of the goods in advance and ensure it to meet with transit and destination countries' codes and regulations, norms and standards given for allowing the goods through their borders.

We also provide you with our licensed truck door to door services for the above-mentioned goods and products to any places within the city or locations in the rural provinces of Mongolia. We highly recommend you consider in the experiences of the particular organization ever done transport of dangerous goods when you make this decision.

Customs clearance and services

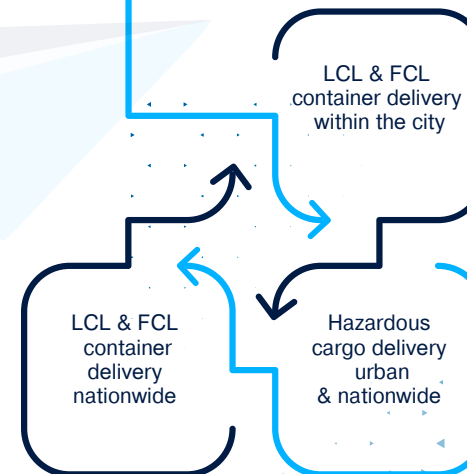

Our company offers a full suite of customs brokerage services for all types of goods and commodities.

To save you time and reduce costs, we handle customs declarations and clearance formalities on your behalf to the highest quality standards. We provide customs brokerage services at all border checkpoints and inland customs offices. Get expert advice and guidance from our seasoned specialists with years of hands-on experience in border and customs compliance requirements and documentation procedures.

Door to Door Service

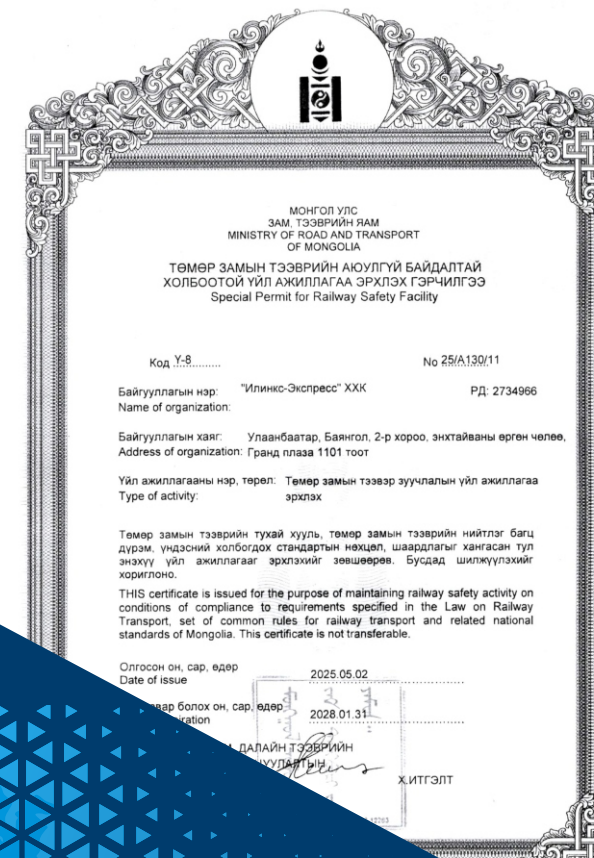

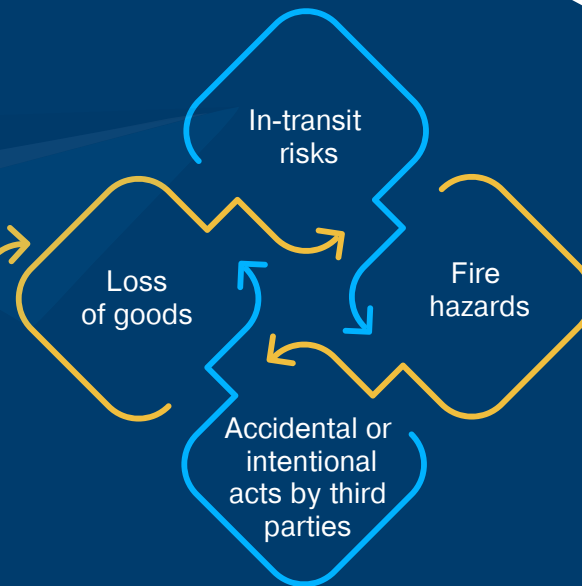

At your request, we deliver both breakbulk and containerized cargo to any destination within the city or across the country using our own dedicated fleet of specialized vehicles. Our services cover everything from general consumer goods to oversized machinery and equipment, as well as hazardous cargo requiring special transport conditions.

CARGO & LIABILITY INSURANCE

Cargo transport insurance is a service designed to protect your shipments against potential risks during transit — including damage, loss of goods, and force majeure events — by providing financial compensation for actual losses incurred.

Illincs Express LLC holds a cargo transport insurance policy valued at MNT 100 billion, enabling us to provide fully insured freight services at no additional cost to our clients.
